Centerville announces 2018 Street Program Additional income tax funding supports 20 lane miles of repair

Following the passage of the income tax levy in 2016, City Council has, as promised, added funding to the annual street program budget. Funding for the 2018 Street Repair program has increased 68 percent from the 2016 budget, with the City planning to spend over \$4.4 million this year. In 2018, just over 20 lane miles of the City's 256 total lane miles, will be improved. [Click here for an interactive map.](#)
